

ACC.19™

68th Annual Scientific Session & Expo

Clinical Focus Sessions

Make time in your schedule to attend these highly interactive sessions on practice-changing topics in cardiovascular medicine. Plus, get time to network with your colleagues with a light snack. Add these sessions to your itinerary using the ACC.19 App or ACC.19 Online Planner.

SUNDAY, MARCH 17
4:45 p.m. – 6:30 p.m.

**Stepping Up to the Unmet Needs of PAD:
Detection and Medical Management**
Session 1603 • Room 343

Learn the skills needed to improve timely detection, diagnosis, and management of PAD to improve both lower extremity and overall CVD outcomes. Advance your current understanding of thrombosis in atherosclerotic PAD and the role of antithrombotic therapy in treating these patients.

Supported by an education grant from Janssen Biotech, Inc., administered by Janssen Scientific Affairs, LLC
